HIV

Get
tested!

How can I get infected?

The virus enters the body through Blood, semen, vaginal secretions and breast milk:

- having vaginal, anal or oral sex without a condom
- through oral sex, when sperm or blood enters the mouth
- sharing drug equipment with other people

How can I protect myself?

- Use a condom in all form of Sexual Act
- Make sure that no blood or sperm enters your mouth during oral sex
- Do not share sex toys
- Do not share drug equipment like syringes, snifter tubes, and rolled-up bank note sharp edges

HIV is treatable. Aids Hilfe Wien offers free or cheap tests and counsel you in person, by phone or email anonymously (secret) and free of charge.
